

Why should your business  
invest in safety training?

**HERE'S  
ONE  
GOOD  
REASON!**

Everyone knows that accidents can happen. Our job is to help you pinpoint potential problem areas, teach you and your staff life-saving skills, and train your workers in techniques that will help them to stay healthy and safe on the job. That knowledge can help reduce insurance and Workers' Compensation costs, and improve regulatory compliance.

*And that's more than one good reason!*

**CALL (717) 209-4045**

**Find out how your business can benefit  
from our staff's combined experience in:**
