

SAFETY / OSHA UPDATE

A Newsletter from High Safety Consulting Services, Ltd.

Information on Safety & Health in Your Workplace

A QUICK NOTE TO WISH EVERYONE A HAPPY NEW YEAR!

The entire staff of High Safety Consulting wishes everyone a happy, and most importantly, a safe 2006! We are looking forward to a great year, and wish the same for all of you!

2006 TRAINING SCHEDULE

Our training schedule for 2006 has been completed and is available on our website: <http://www.highsafety.com/hsl/resources/courses/>. Make sure you look through the list carefully, as there are several new courses this year, as well as some new options on a few of the usual courses.

It is not too late to sign up for the OSHA 30-Hour Construction class running all next week, January 9 -13. It's a great time to fit this training in when your business might be a little slower after the holidays. We aren't offering this course on the schedule again until November, so sign-up now at: <http://www.highsafety.com/hsl/resources/courses/course.cfm?id=35>.

IMPORTANT RECALL INFORMATION

Finally I wanted to pass along two important recall notices that might affect your operations. Click on the links to view the details:

- 1) [Miller fall protection device recall](#)
- 2) [Industrial Ladder Recall](#)

NOTE: All of our [prior newsletters](#) are archived on our website under the "Contact Us" Tab
